

## Module 5: How To Practice Effectively, Part 2

### (Practicing New Songs)

Rather than spending a lot of time discussing this module, consider doing an optional exercise list below. There are also some questions for discussion.

1. What are some ways you passively listen to songs. Is there anything I can do as a leader to make that easier for you? (Spotify playlists, downloadable mp3s, etc)
2. What are some techniques or ideas you're taking away from this training session?
3. As we introduce songs, what are some things that I as the leader can help you learn the songs better?
4. The extra time we spend on a new song can be viewed as an investment. Do you agree with that? Why or why not?

### Optional Active Listening Exercise

Choose a new song that you're planning on introducing and do an active listening exercise together.

- Each person should have a copy of the chart.
- Listen through the song once.
- Identify the form (note each section and order of those).
- Each person should listen for their parts and identify what they'll need to learn.
- Identify any spots that might be challenging for team or individuals.
- Discuss what changes you might need to make to make it work for your church and congregation.
